Hi Geoff. [REDACTED]

I'm almost done with the CRADA comments. I just have section 6 (publication) to review. I should be done by 3:30 and will get all 3 out by COB. So what you want to tell Elise is perfectly fine.

I'll be so glad to be done with this round of review. Liat offered to talk, I think we need to talk about the CRADA. But let's first see what she says about all of my comments.

*"Everything should be made as simple as possible,
but not simpler." - Albert Einstein*

[REDACTED]

We can tell Elise et al that the NDA and MTA are being processed (so the lab can start looking at the equipment) and that we have responded fully to Liat's mark up on the CRADA. That mark up shows that they still don't grasp what we can do under a CRADA and that is why we decided to move ahead with the MTA (a simpler form of agreement) first. Sound okay?
